

MADE IN JAPAN

DAIWA RABIN

来自「易切割」「易研磨」「高耐久性」的弹性橡胶磨头的 Daiwa Rabin!

粗重研磨作业用的橡胶磨轮片!

行业首发
Industry's first

Grinding, Polish and Last long Elastic rubber grinding stone: Daiwa Rabin
For heavy duty grinding Offset rubber grinding stone

GWO DISC

最高使用回转数 Maximum rotation speed

13,000rpm 68m/s

推荐回转数 Recommended rotation speed

7,000~8,000rpm

对应机种
电动圆盘磨床

Power Tools
Angle grinder

G

Grinding - 研削能力 UP

W

ear resistance - 耐磨性 UP

O

dorless - 无臭 UP

GWO系列 新发售!
NEW! GWO series

用途 Application

去除焊缝痕迹, 残渣

去毛刺·边缘加工

去除涂层·去除电镀层

重度除锈

其他研磨·研削用途

Removing
welded beat

De-burring,
Edge processing

Removing
plating & painting

Removing
heavy rust

Polishing·Grinding

适用材料 Materials

锈铁
Cast iron

钢铁
Iron steel

不锈钢
Stainless steel

铜合金·黄铜
Copper Zinc alloy

从锈铁, 钢铁, 不锈钢到铝, 铜等非铁金属, 再到玻璃, 陶瓷, 可作业于范围广泛的素材。

From Cast iron, Iron steel, Stainless steel to Aluminum, Copper, non-ferrous metal, and Glass, Ceramic. Cover wide range of materials

GWO的特征 Features

- 根据新的橡胶配方, 大幅提升了研削能力 Due to new rubber composition, improved grinding force
- 发挥橡胶的特征, 不会留下深的伤痕 Only rubber, beautiful finish without causing scratch
- 独特的设计防止烧伤 Original design can prevent burn
- 由于二次毛刺在去毛刺后不太可能再次出现, 因此减少工序并降低成本 Eliminate second burr and make post-processing easier
- 通过产品的长寿命 工序的减少, 来降低成本 Reduce cost due to long last and less process

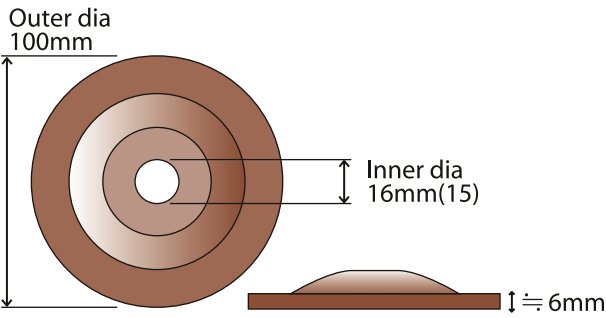

φ 16→15
配有互换的衬套

Adapter enclosed
φ 16→15

GWO作为创新产品, 用它研磨后的产品表面光滑, 使得原本需要两道工序(树脂砂轮, 磨砂纸研磨)的作业, 用一道工序便可完成。

Reduce process of resinoid wheel and paper disk

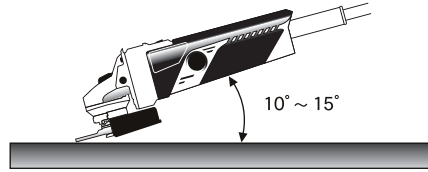

规格 Specification

Item No.	Type	Grain	Grit	Size
18063	GWO	WA	46	100-6 -16(15)
18064	GWO	WA	60	
18065	GWO	WA	80	
18066	GWO	WA	120	

请装在角磨机上使用。请不要以陡峭的角度使用磨片，而是以稍微倾斜的角度(10-15度)来操作。

Use with an angle grinder. Operate in low-angled (10 to 15°) not in steep angled.

⚠️ 请注意！ / Attention!

请不要忘了安装上附带品衬套后再使用。
Operate with an enclosed adapter.

⚠️ 危险性 (使用上的注意事项) / Dangerous

橡胶弹性与一般弹性大不相同，其特征在于它会根据负荷而变形并且变形量会很大。如果像一般的磨头或切削工具那样使用的话，则会非常危险。请严格遵守最高使用回转数这个限制条件。请不要擦超出这个负荷。

Rubber elasticity is very different from general elasticity, which is characterized by deformation according to the load as well as a high amount of deformation. Therefore, handling the Daiwa Rabin as a general grinding stone and cutting tool can be very dangerous. Operate your devices at the speed less than the maximum r.p.m. Take care not to apply too much load.

什么是弹性橡胶磨头「Daiwa Rabin」 An elastic rubberized grinding stone "Daiwa Rabin" is ...

特征 / Features

- 「易切割，易研磨」橡胶磨头...
这正是 Daiwa Rabin 的特征。
"Cut, Polish" This is feature of Daiwa Rabin
- 间断，耐久性差...
等等橡胶磨头的缺点已被解决，
这正是 Daiwa Rabin 的优异性能。
Clogging, Durability... Overcome weakness of
rubber stone due to excellent performance of
Daiwa Rabin
- 超过 18000种，
匹配不同工作场景·作业内容的品类
Items over 18,000 according to work piece
and operation details
- 深受来自世界上30多个国家的用户的信赖。
Used in more than 30 countries, which is
a sign of trust
